Experience

Full-Stack Developer

Sinergi Mitra GroserIndo

Remote / On-site
Oct 2023 - Present

Maintained the existing web client and dashboard by resolving bugs and delivering new features based on user and client requirements.

Installed and deployed projects on client sites, including configuring the environment, monitoring system performance, and setting up remote access for long-distance maintenance.

Monitored mobile application performance and errors using Sentry. Managed and contributed to mobile and web development projects.

Tech Stack: Laravel, jQuery, Vue, Nuxt.js, React Native, Flutter

Front-End Developer

LOKO IT Solutions

Nov 2020 - Jul 2023

Managed and contributed to mobile and web development projects. Collaborated with UI/UX designers to translate designs, mockups, wireframes, and prototypes into MVPs and production-ready applications.

Responsible for maintaining the existing dashboard, fixing bugs, and developing new features based on user or client requests.

Built the LOKO Sisfo Campus website, including converting UI designs into responsive pages, using Next.js, TypeScript, Tailwind CSS, and AOS.

Supported team members by diagnosing and resolving JavaScript and related front-end issues.

Tech Stack: Laravel, jQuery, React, Vue, Next.js, Nuxt.js, Flutter
